

How could you even consider rescinding this law? It is a pleasure to sit down to dinner and at other times without those telephone pests bothering us. I had to leave my answering machine on all the time so I could screen these calls and not answer my phone. We deserve our privacy without it being constantly invaded by telephone marketers. I am sure lots of them have bad hearing now because of all the times I slammed down the phone on them! PLEASE LEAVE THIS LAW AS IT IS - IT WORKS!!
